101400-H: SIGNAGE (10400-H)

GENERAL

Signing for the University Hospitals and Health Centers is based on an established standard.

EXTERIOR BUILDING SIGNAGE

1. Consult Project Coordinator for information regarding permanent signs on buildings. Exterior Signs are often Contractor Furnished and Installed.
2. The Americans with Disabilities Act requires that each University facility identify accessible building entrances with the international symbol for accessibility.
    a. Additionally, signage at inaccessible entrances is to direct users to an accessible entrance or to a location at which they can obtain information about accessible facilities.
3. New construction at the building entrance is to include appropriate signage. The design, placement and materials of exterior signage must be approved by the University's Exterior Element Design Review Committee.

INTERIOR SIGNS

Specified by Interior Design and are typically installed by the Owner's own forces, not the Contractor.

1. **Signage Characteristics**
    a. All signage must comply with applicable codes and regulatory agencies listed in 1.0 "Codes and Regulatory Agencies".
2. **Room Number Assignments**
    a. FPD assigns room numbers for Hospitals and Health Centers projects.
