DESIGN GUIDELINE 4.4.5
SITE SIGNAGE

Scope

Scope: Provide all necessary signage for pedestrian and vehicular traffic flow, both on University property and within City of Ann Arbor Right of Way (ROW). Scope does not include or refer to University of Michigan building signage.

Design and Installation Requirements

For all impacts to the City ROW ensure required signage for new or modified parking spaces, fire lane access points, bike lanes and midblock crosswalks have been included in the scope of the project. Include all permanent traffic and pedestrian traffic control.

Provide site signage, as applicable, for project. Including but not limited to:

- Permanent traffic control signage, stop signs, speed limit signs.
- Pedestrian traffic control signs, mid-block cross walk signage.
- Fire lane access points
- Bike Lanes
- Specific parking restrictions
- Signage marking no driving zones (weight limits due to underground tunnels)

Provide temporary site signage for pedestrian and vehicle traffic for construction.
